Worksheet 02.01 - Buggy Code

CS IN SCHOOLS

Name ....

Class ....

Copy this code line into the CS in Schools code editor	What error message did you see displayed on the screen when you ran it? (Some of the code may actually work!)	What did you type in to fix the code? (If the code works, you can type **N/A**)
`prit("Hello, world!")`	`NameError: name 'prit' is not defined on line 1`	`print("Hello, world!")`
`print(You're the best)`	`SyntaxError: bad input on line 1`	
`primt("Hello, world!")`		
`print(My name is John")`		
`Print("I like school")`		
`print('Python is good.")`		
`print("Jane is my name.')`		
`pri nt("Heeeeellooo!!!!")`		
`print(        "Hi bob!")`		
`print("Hi        bob!")`		
`print        ("Hi bob!")`
